

Safer Roads Ahead. – The Bamfield Program

A FIRE-SEASON SPRINT · LAUNCH TBD

Bamfield Road, watched before the next storm.

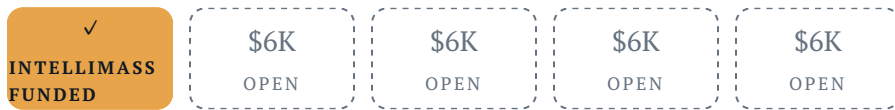

The Bamfield Corridor is one of BC's most wildfire-exposed evacuation corridors – and it launches. The Bamfield Program puts a fleet of Scout kits across the corridor now, plus drivers ready to capture fresh readings the moment an emergency hits. We've already put in the first kit. We need help covering the rest – fast.

\$30,000

THE BAMFIELD PROGRAM · THE RAISE

4 additional Scout kits + driver recruitment to blanket the corridor and keep readings fresh through peak season.

1 OF 5 KITS ALREADY FUNDED – INTELLIMASS DONATED THE FIRST

INTELLIMASS: \$6K + 1 KIT (DONATED) · 4 KITS × \$6K = \$24000 + DRIVERS \$0 = \$30,000 TO RAISE

Why now.

TBD

HOW IT WORKS – NO NEW TRIPS, NO NEW STAFF

Community trucks, forestry vehicles and crews hitch-mount our units – plus optional, easy road-health video capture. They gather road-condition data on routine drives, and our AI turns it into clear road-health assessments for emergency coordinators. The roads people evacuate on, watched in real time.

Safer Roads Ahead. — Join the The Bamfield Program

THREE WAYS TO HELP COVER THE BAMFIELD

\$6,000

FUND A SCOUT KIT

Put a unit on the bamfield for the season — one of the 4 still open. Your kit, your lockup on its data.

\$3,000

CO-SPONSOR A KIT

Share a kit with another brand. Two co-sponsors, one unit, both names on the data it collects.

Drivers

BACK THE READINGS

Put your support toward driver recruitment instead of hardware — fresh readings when an emergency hits.

WHAT YOUR SPONSORSHIP GETS YOU

1 Your logo on the maps and the data

Every kilometre and hazard your kit collects is automatically linked to your brand — your lockup on the route footage, live maps and road-health reports, dynamically, all season.

2 Press release mentions

Named as a founding The Bamfield Program sponsor in our press releases and media outreach — the story's already landing with Global News, CBC and regional press.

3 Your logo on our sponsors page

A permanent home for your logo on the BackRoadIntel website's sponsors page — recognized alongside the other brands making this possible.

**Join the
Bamfield.
Now.**

Fund a kit (\$6,000), co-sponsor one (\$3,000), or back the drivers. Every level carries founding-sponsor recognition — your name in the launch press, on the maps and in the coverage that follows. **Ryan Gallagher · CEO, IntelliMass Technologies ·**

Safer Roads Ahead. — Proof & Press

BACKED, PROVEN AND ALREADY IN THE FIELD

\$1.15M

FEDERALLY PRE-QUALIFIED

IntelliMass.ai is pre-qualified under the federal government's \$1.15M AI Innovation Testing Stream, which evaluates Canadian tech solving public-sector challenges.

10+

FIRST NATIONS · LYTTON

This season, 10+ First Nations around Lytton are the first to pilot BackRoadIntel.

Now

LIVE, AHEAD OF GRANTS

The bamfield rollout is underway ahead of grant approvals — so the data is available right away, not next fire season.
