

FOUNDING SPONSOR · SHORT-TERM ACTION

# Sponsor one Scout. Lead at the launch.

## \$6,000

ONE SCOUT UNIT · ONE FIRE SEASON

The single fastest way for Kal Tire to be a founding sponsor at the June 25 The Canyon launch — one field unit, deployed this season, with your name on it from day one. No need to settle the bigger program first.

WHAT \$6,000 PUTS IN THE FIELD

1

### One Scout field unit

Deployed on a vehicle already serving the region for the full fire season.

2

### ~8,000 km of road data

2,000+ km/month of passive road-health monitoring — a full season of regional coverage.

3

### Real-time route intelligence

Live evac-route grading and hazard reports for a community that needs it most.

4

### Founding-sponsor recognition

Co-branding, a share of the PR, and your lockup on the data the unit collects.

**June 25.  
Days away.**

The The Canyon launch is built for press and it's almost here. One Scout gets Kal Tire in the founding-sponsor frame now — in the launch coverage, on the website, and in the kickoff case study — without waiting on a larger decision.

Ready to go bigger? The full proposal is ready whenever you are — multiple communities, a First Nation region, the operational/mining track, multi-year anchor options. But the launch won't wait, and one Scout is the move that matters this week.

**Say yes  
to one Scout.**

Reply and we'll deploy it this fire season and get Kal Tire into the launch press. **Ryan Gallagher · CEO, IntelliMass Technologies · ryan.g@intellimass.ai**
